Assignment 1: Write a mini web browser
Due: 4PM October 19, 2009

Specifics: Write a simple web browser using a UIWebView. Your application should have:

- a text field for entering a URL
- forward and back buttons to move through the browser history

Hints:

- Adopt the UITextFieldDelegate protocol to detect when the user presses "return" on the keyboard.
- Adopt the UIWebViewDelegate protocol.
- Make sure to type "http://" with your URLs
